Subject: RE: Sampling on Tuesday

I was intending to leave from [REDACTED] to be at the river around 7 AM. I need to be back to Durham for 11:15 to 11:30 or so. The location of the boat ramp is the Fayetteville Boating Access Cape Fear river. We will need to motor down to the area with the stars. I estimate about a 15 mile one way trip downriver to the sampling site. That concerns me a bit.
Mark

Subject: Sampling on Tuesday

Hi Mark and Zack,

Thanks for getting a vehicle/boat for Tuesday. Zack will be helping collect the samples. I will be helping with grab samples from the river so will not be on the boat with you guys. I wanted to send an email including both

of you so that you can touch base and coordinate, if need be. Are you still planning to leave directly from your house Personal Matters / Ex. 6 If so, we can meet you there at 7. Where would you like Zack to meet you? I know you mentioned the boat put-in location is upstream of the Huske Dam.

Please let me know if either of you have any questions.

Thank you both for your help!

Hillary
